AGENCY’S DISCUSSION AND ANALYSIS

The Public Service Commission of South Carolina (Commission or PSC) regulates the rates and services of investor-owned public utilities in the State of South Carolina. With over 100 years of service to the state of South Carolina, the PSC establishes just and reasonable standards for their rates and services.

The mission of the Public Service Commission of South Carolina is to serve the public by providing open and effective regulation and adjudication of the state’s public utilities, through consistent administration of the law and regulatory process. The State Regulation of Public Utilities Review Committee serves as the joint legislative committee that oversees the operations of the Commission as a result of Act 175 of 2004 and is chaired by Senator Thomas Alexander.

In order for the Public Service Commission of South Carolina to carry out its mission, the Commission must be alert to and anticipate emerging issues in the industries it regulates, including federal regulatory developments. Maintaining effective communications with its stakeholders will aid in achieving this goal.

The Commission will continue to improve its hearing procedures so as to provide the public with accessible, transparent, and effective regulation of public utilities and provide the public with clear information about the regulatory process and its decisions. In an effort to increase transparency and engagement with public utility consumers, the Commission continued the implementation of a more robust communications platform, including its SC Utility Consumer website, social media accounts, and advertisement campaign. Across all of its social media accounts, the Commission has 976 followers, accounting for a 47% increase in followership since last fiscal year. The Commission has also continued to effectively utilize its livestreaming service for stakeholders to engage in the Commission’s hearings and meetings. The service allowed the PSC to remain transparent and continue its operations during the COVID-19 pandemic.

An ongoing goal of the Commission is to improve its operations through technological advances. As opportunities are identified, the Commission will investigate both costs and benefits before taking the appropriate actions.

The nation’s electric and gas industries are subject to a broad range of regulatory models across the country, and regulators have taken a number of measures to increase competition and investment. With growing pressure for the generation of energy using alternative energy sources, the Commission must effectively regulate these industries, safeguarding the ratepayers without unduly burdening the industries or stifling competition.

The public relies on the Commission’s online systems to access information related to its operations. The Commission must budget funds to support maintenance and development of the systems.

The Commission’s primary duty is to adjudicate cases involving the state’s investor-owned utilities. This past fiscal year, the Commission opened 347 new dockets, including non-docketed items, held 59 hearings, issued 313 orders, and 531 directive orders. In 2018-2019, the PSC issued 435 orders and 425 directive orders. A total of 6,730 matters were posted on the Commission’s Docket Management System (DMS). The Commission also held 46 Commission Business Meetings during the year.

The Commission’s hearings encompass the electric, gas, telecommunications, transportation, water, and wastewater industries. There continues to be a steady number of hearings within the electric industry due to the impact of new issues which must be addressed from a regulatory standpoint, including the SC Energy Freedom Act of 2019. Some of these issues include solar and energy efficiency programs, demand side management programs and integrated resource plans. **Appendix A** provides a breakdown of the types of hearings the Commission held throughout the year.

The Commission continued to expand its leadership and involvement in national organizations, providing opportunities for involvement in emerging utility issues. The benefits from attendance at national and regional regulatory conferences (NARUC, SEARUC, NRRI, etc.) and involvement in associated committees and related organizations are numerous, and this provides an important means of staying abreast of key issues in the regulated arena.

During the year, the PSC continued the implementation of its Docket Management System (DMS) eService Enhancement Project. The Project is to be implemented in four phases. Phase III was completed during the fiscal year and focused on the following DMS enhancements: the creation of a DMS pop-up survey, an updated text-alert platform, and the correction of issues identified during a fiscal year 2018-2019 vulnerability scan. The Project’s ultimate goal is to have all electronically filed documents automatically eServed to all Parties of Record in a docket upon filing. Phase IV implementation will begin during fiscal year 2020-2021.

The Commission continued to execute its robust digital communications program during the year to increase the transparency of the Agency’s operations. This program included the use of mobile-text alerts, digital newsletters, livestreaming of Commission hearings and meetings, use of social media, and an increased public communications plan through the Commission’s SC Utility Consumer website and blog. The Commission uses the SC Utility Consumer website as a tool to increase public awareness and knowledge about the PSC’s role in the community and how it serves the citizens of South Carolina. The user-friendly site educates the public on the Commission’s role, services, and processes in an easily

digestible format. The website’s blog hosts informative articles with money and energy saving tips for South Carolina’s ratepayers and showcases consumer-relevant Commission activities – from allowable ex parte briefings and other Commission events to public night hearings. The PSC continued its coordinated ad campaign with state media outlets to drive traffic to the SC Utility Consumer website and its social media content. At the end of the fiscal year, the Commission had 976 social media followers across all of its social media accounts, accounting for a 47% increase in its followers since last fiscal year. The following tables and graphs depict the relationship between the ad campaigns and traffic to the Commission’s social media pages and SC Utility Consumer website.

*The SC Utility Consumer social media accounts were created during Fiscal Year 2018-2019 and, therefore; data does not exist for the accounts during Fiscal Year 2017-2018.

The SC Utility Consumer website’s traffic is mostly flat but spiked each time the Commission began a new round of advertising (e.g., November 2019 and especially May of 2020).

During the fiscal year, the Commission continued livestreaming its Commission Business Meetings, major hearings, and Allowable Ex Parte Briefings. Statistics for the livestream service are provided on the following page. Livestream viewers watched 8,616 events (live and on-demand) during the year. The Commission’s livestream service allowed the Agency to continue its operations uninterrupted and remain transparent during the COVID-19 pandemic. The Commission switched to a virtual hearing and meeting format after Governor McMaster declared a State of Emergency on March 13, 2020. The table on the following page outlines the number of virtual meetings and hearings the PSC held during the pandemic through the end of the 2019-2020 fiscal year.

During the 2019-2020 fiscal year, the Commission continued to use its eService System to serve matters and orders to parties of record in a docket. The system continues to be an effective and efficient resource for delivering matters and orders in a timely manner. The following chart and table provide a breakdown of the items served via the system by industry. The electric industry continues to be the most active. Electric matters stemming from the SC Energy Freedom Act, including Avoided Cost Methodologies and solar issues, are the reasons for the dominance of electric related matters and orders served via the system during the year. Rate cases were held in sewer and water/sewer dockets throughout the year, accounting for the increase in those matters being served via the eService System.

Since the introduction of the eService System, the Commission has seen a reduction in postage costs of over \$17,230 over the past nine years. The following Postage Account Transactions chart shows the reduction in postage transactions over the past nine years and includes the number of items mailed throughout these years. This significant cost reduction is attributable to the Commission’s eService System and highlights the benefit of its use.

On March 13, 2020, Governor Henry McMaster issued Executive Order 2020-08, declaring a State of Emergency in South Carolina based on a determination that COVID-19 “poses an actual or imminent public health emergency for the State of South Carolina.” In response to the COVID-19 pandemic, the Commission took swift action to protect utility consumers and to continue the Agency’s mission and operations without interruption. These actions included opening [Docket No. 2020-106-A](#) on March 17, 2020 to address public utility actions in response to COVID-19. The Commission issued 11 Orders addressing matters related to late payment charges, service disconnections, and Lifeline, among other matters. The following table outlines some Orders the Commission issued regarding the pandemic.

Date	Order No.	Description
March 18, 2020	2020-210	Suspends requirement allowing Lifeline ETCs to drop customers for non-usage or failed re-certification for 9 months or until national emergency is lifted. (<i>modified by Order No. 2020-304</i>)
March 18, 2020	2020-228	Waives Regulations regarding Late Payment Charges and Procedures for Termination of Service for all regulated utilities and directs all regulated utilities to suspend disconnection of service during the COVID-19 State of Emergency. (<i>Order No. 2020-228 vacated (cancelled), in part, by Order No. 2020-374 as it relates to termination of service</i>)
April 8, 2020	2020-304	Modifies Order No. 2020-210 to reflect granting only such waivers and timelines as specifically granted by the Federal Communications Commission’s Order No. DA 20-354 which extends the Lifeline ETC requirement for non-usage or failed recertification deadline to May 29, 2020.
May 7, 2020	2020-344	Waives the requirement that deferred payment plans for the payment or arrearages on regulated utility bills be limited to six months and allows the utilities the ability to offer customers a longer deferred payment plan.
May 14, 2020	2020-370	Clarifies Commission Order No. 2020-344 is also applicable to business customers, as well as residential customers allowing utilities more flexibility in working out the payment of bill arrearages.
May 14, 2020	2020-372	Requires utilities to track revenue impacts, incremental costs and savings related to COVID-19, and file the findings with the Commission on a quarterly basis, beginning as soon as possible, but no later than the end of the second quarter of 2020. (<i>Clarified by Commission Order No. 2020-417</i>)
May 14, 2020	2020-374	Vacates (cancels) the waivers of Commission Regulations 103-352, 103-452, 103-735.1, 103-535, and 103-633 regarding termination of service found in Commission Order No. 2020-228 and vacates the provision of the Order directing all regulated utilities to suspend disconnection of service. The Order states these vacations are to be made <i>conditional</i> and directs utilities to work with customers needing assistance to refer them to local organizations or arrange payment plans to avoid or minimize penalties and service interruptions.
May 28, 2020	2020-391	Grants the use of verification in lieu of an affidavit, the Commission will consider such verification to be equivalent legally to the execution of an affidavit when the latter is required by the Commission’s forms or rules and regulations. Certain examples of when this substitution would be applicable include, applications for Class E certificates, payphone service provider applications, and gross receipts forms.
June 3, 2020	2020-400	Approves Piedmont Natural Gas Company’s request to suspend routine meter testing through the remainder of 2020.
June 3, 2020	2020-403	The Public Service Commission moved that all hearings and other matters that would ordinarily require in-person attendance by parties or the public before the Commission will be conducted virtually until further order of the Commission. Parties are directed to contact Randy Erskine, of our IT Department, at 803-896-5104 within a reasonable time before the proceedings begin, to make sure that they can be conducted smoothly.

June 10, 2020	2020-417	Clarifies Commission Order No. 2020-372 by stating that all telecommunications companies whose rates are not regulated by the Commission or which have elected to be regulated under S.C. Code Annotated Section 58-9-576 are not required to track revenue impacts, incremental costs, and savings related to COVID-19, nor are they required to file such findings on a quarterly basis as otherwise required for utilities under Order No. 2020-372 as Order No. 2020-372 applies to utilities regulated by the Commission.
---------------	--------------------------	--

The Public Service Commission performs an annual exercise of developing performance measures in the areas that are critical to the successful operation of the Agency. The Agency’s Strategic Plan will serve as guidance in the performance measurement development process.

Subsection I: Risk Assessment and Mitigation Strategies

- I. **Optimize the Effectiveness of Commission Processes and Systems**
 - a. Potential Most Negative Impact: Increased operational costs and ineffective Commission processes and systems.
 - b. Outside Help to Mitigate Impact: External IT contractor hired to ensure the Commission’s online databases operate effectively.
 - c. Options for General Assembly: Meeting resource and funding needs.
- II. **Promote Operational Excellence & Transparency**
 - a. Potential Most Negative Impact: Insufficient transparency of Commission operations results in public distrust and lack of public knowledge about the PSC’s processes and procedures.
 - b. Outside Help to Mitigate Impact: Procurement of digital media resources to effectively communicate the PSC’s role and resources available to consumers.
 - c. Options for General Assembly: Meeting resource and funding needs.
- III. **Embrace Risk Management**
 - a. Potential Most Negative Impact: Without risk awareness and planning, the PSC risks increased costs and lacks preparedness for adverse events.
 - b. Outside Help to Mitigate Impact: Partnership with DTO to ensure integrity of IT Systems and online databases, and other external security vendors.
 - c. Options for General Assembly: Meeting resource and funding needs.
- IV. **Maintain Commitment to an Engaged Adjudicatory Process**
 - a. Potential Most Negative Impact: Ineffective regulation of the state’s public utility sector.
 - b. Outside Help to Mitigate Impact: Outside experts, memberships and participation in national organizations.
 - c. Options for General Assembly: Meeting resource and funding needs.

Subsection II: Restructuring Recommendations

At this time, the Commission has no recommendations for restructuring. The agency is reviewed annually by the Public Utilities Review Committee provided in §58-3-530.

NOTES:
FY2020-21 Expenditures (Projected) equal the appropriated budget as provided in the SC General Assembly Continuing Resolution House Bill H. 3411, Act No. 135 of \$5,688,938 as this was the appropriation for the Public Service Commission for fiscal year 2019.

FY2020 Expenditures are traced in SCEIS Financial.

FY2021 Expenditures are the Agency's projections.

Administrative Offices FY21 projected expenditures increased due to Terminal Leave for 3 Commissioners and a decrease in projected temporary salaries in FY21. Reassignment/Realignment of Administrative staff to Clerk's Office, to Legal and from Public Utility Analysts net out.

Clerk's Office FY21 projected expenditures increased only because of the reassignment/realignment of staff from Administrative to the Clerk's Office.

Legal Office FY21 projected expenditures increased due to the offset of an addition of Special Counsel to assist Commissioners and a lower rehire in staffing.

Public Utility Analysts Office FY21 projected expenditures increased due to the anticipation of hiring a Department head and an offset of reassignment/realignment of staff to Administration.
