Public Service Commission Schedules Hearing in Dominion Energy South Carolina, Inc. Avoided Cost Proceeding Docket

Columbia, South Carolina—The Public Service Commission has scheduled a hearing for Tuesday, July 22nd, 2025, in [Docket No. 2025-15-E](#), which involves Dominion Energy South Carolina (DESC), Inc.'s Avoided Cost Proceeding. An "avoided cost" is the marginal or incremental (or additional increase) cost for Dominion Energy South Carolina, Inc. to produce one more unit of electricity to serve its customers and is the maximum rate that a utility can pay for electricity from small, qualified, third-party generators whose primary energy source is renewable (hydro, solar, or wind), biomass, waste, or geothermal resources.

Dominion Energy South Carolina is asking the Commission to issue an Order in this Docket that would:

- Approve the Company's continued use of the Difference in Revenue Requirements ("DRR") methodology for calculating avoided costs.
- Approve the Company's proposed avoided costs, as calculated using DRR methodology.
- Approve the Company's proposed tariffs and form contracts for implementing the provisions of Section 58-41-20(A).
- Approve the Company's proposed levelized 10-year variable integration charge (VIC) of \$1.94/MWh applicable to future executed solar contracts. The Company is not seeking any change to the VIC applicable to the existing contracts.
- Approve all other terms and conditions the Commission deems appropriate and prudent.

This hearing will be held on Tuesday, July 22nd, 2025, at 10 a.m. and will be broadcast live [at this link](#).
